

Cygnets IRP

Seamlessly generate e-Invoices
with Cygnets IRP

Indirect Tax Compliance Platform

Unified platform for e-Invoice,
e-Way bill, return filing and
reconciliation

Indirect Tax Compliance

- **e-Invoicing:**
Automate data extraction from ERP systems, real time e-Invoice reporting with bulk generation
- **e-way bill:**
Reconcile your bills with sales and purchase data and have ease access of e-Way bill with mobile app
- **GST returns:**
Enable 3-way Reconciliation between e-Invoice, e-Way Bill, GST Sales and Purchase

Vendor Reconciliation

ML driven reconciliation (6A vs 2A, 2B vs 2A vs 9/8A, 3 way with e-Invoice, e-Way, GST sales and purchase) via fuzzy logic for automated accurate compliance.

Notification Module - GSTR 2A and 2B Reconciliation report segregates documents into 6 different sections – Matched, Matched by tolerance, Near Matched, Mismatched, Not available in Purchase Register, Not available in GSTN as per the settings configured by the user and enables the notification trail.

Our offerings for BFSI

Indirect tax compliance

- **Digital Engineering Services**
- **Automation Whiz Platform**
- **Digitize Purchases**
- **Vendor Reconciliation GST**
- **Cygnature**
- **Accounts Payable**

Automation Whiz

It is an enterprise Robotic Process Automation (RPA) platform that helps create, manage, and execute bots. These bots extract required information from bank statements, from premium receipts to propose relevant insurance plans.

Cygnature

A blockchain based e-Signing solution that allows the concerned authorities to e-Sign documents like sanction letters, capex approval, opex approval with ease. It also enables e-Stamping, Aadhar based signing and bulk signing for ease of operations.

Digitize Purchase

Check vendor's e-Invoicing applicability and automate posting purchase entries via e-Invoicing, e-Way bill and 2A data availability and communicate vendors.

Accounts Payable

Check vendor invoices for GSTR 2A status and with fuzzy logic enable decisive flags in ERP to automate payment release based on Match, mismatch and partial match.

Digital Engineering Services

Enabled upselling and down selling of the policies and increased average customer retention per month increased from 32% to 55% with AI/ML models, with approx. 97% accurate model.

Developed reports such as Management Report, Collection Report for Policies, and New Sales Report integrating with Expedia to Customer data & Predict Policy plan.
