Indirect Tax Compliance platform for the Middle East

Cygnet TaxTech's Indirect Tax Compliance Platform for the Middle East helps business tax teams across countries such as UAE, KSA, Oman, and Bahrain for preparing VAT returns. It automates VAT return preparation, i.e., collating and validating data and preparing, verifying & submitting VAT returns in specific formats provided by the tax authorities.

Features

Seamless integration with varied business systems

Powerful & scalable solution that processes millions of records in minutes

Single platform to manage multiple users and companies

Advanced data security and encryption

Ensure audit readiness with Audit Files generated by systems

Cygnet TaxTech
